WORKSHOP

Maritime Spatial Planning and the European Green Deal: insights from the Atlantic and Channel-North Sea basins

On site

en distanciel

SAINT-MALO, FRANCE | Hotel France et Chateaubriand

Cerema and the Directorate-General for Maritime Affairs, Fisheries and Aquaculture (DGAMPA) of the French Secretary of State for the Sea and Biodiversity invite the workshop Thursday 26 September 2024 from 09.30am to 5.30pm in SAINT MALO.

This workshop is organised by the European project [MSP-GREEN](#), dedicated to the implementation of the European Green Deal through maritime spatial planning. During this workshop, the main project results will be discussed from the specific perspectives of the Atlantic and Channel-North Sea basins. This will provide a platform for cross-basins discussions exploring how both the Atlantic Strategy and the Greater North Sea Basin Initiative (GNSBI) can contribute to key objectives of the European Green Deal, taking account of their specific features and points in common.
